CSA 15- CLOUD COMPUTING AND BIG DATA ANALYTICS
LIST OF EXPERIMENT 23

23. Create a simple cloud software application for Payroll Processing System using any Cloud Service Provider to demonstrate SaaS include the necessary fields such as Name of the employee, experience in present org , over all experience, basic pay, HRA, DA, TA, net pay, gross pay etc.

Aim:

To create a simple cloud-based Payroll Processing System using Zoho Creator as a SaaS application for storing employee details and calculating gross pay and net pay.

Procedure:

1. Open Zoho Creator and create a new application named Payroll Processing System.
2. Create the Employee Details form with fields such as Employee ID, Employee Name, Department, Designation, Present Organization Experience and Overall Experience.
3. Create the Payroll Processing form with Basic Pay, HRA, DA, TA, Gross Pay, deductions and Net Pay fields.
4. Use formula fields to calculate $\text{Gross Pay} = \text{Basic Pay} + \text{HRA} + \text{DA} + \text{TA} + \text{Other Allowance}$.
5. Calculate $\text{Net Pay} = \text{Gross Pay} - \text{Total Deductions}$.
6. Add sample employee and salary records.
7. Save and test the application in the Zoho Creator cloud environment.

Snapchat:

The screenshot shows a web application titled "Payroll Processing System". On the left is a dark sidebar with a logo "PPS" and three menu items: "Employee Details" (selected), "All Employee Details", and "Payroll Processing". The main content area is titled "Employee Details" and contains a form with the following fields:

- Employee ID: 678
- Employee Name: Pritheev (First Name) and an empty field (Last Name)
- Email: abcd.efg@gmail.com
- Phone: +91 1234567895
- Date of joining: 01-Sep-2026

A blue "Submit" button is located at the bottom of the form.

The screenshot shows the "All Employee Details" view of the "Payroll Processing System". It features a table with the following data:

Employee ID	Employee Name	Email	Phone	Date of joining
678	Pritheev	abcd.efg@gmail.com	+911234567895	01-Sep-2026

The table has a search icon and a plus icon in the top right corner. The sidebar on the left is identical to the previous screenshot.

Result:

Thus, a cloud-based Payroll Processing System was successfully created using Zoho Creator. Employee details, salary components, gross pay and net pay can be stored and processed through the SaaS application.
