LIST OF EXPERIMENT 24

24. Create a simple cloud software application for Students Attendance System using any Cloud Service Provider to demonstrate SaaS include the necessary fields such as name of the students, course, present , Absent, course attendance, OD request, grade, attendance percentage, etc

Aim

To create a simple cloud-based Students Attendance System using Zoho Creator as a SaaS application for managing student attendance, OD requests and attendance percentage.

Procedure

1. Open Zoho Creator and create a new application named Students Attendance System.
2. Create the Student Details form with Student ID, Student Name, Register Number, Course, Year, Section, Email and Phone Number.
3. Create the Attendance & OD form with Attendance Date, Status, Total Classes, Present, Absent, OD Request, OD Reason and Grade fields.
4. Use a formula to calculate Attendance Percentage = $(\text{Present} / \text{Total Classes}) \times 100$.
5. Add sample student attendance and OD records.
6. Test Present/Absent status and attendance percentage calculation.
7. Save and run the application through the Zoho Creator cloud platform.

Snapchat:

The screenshot shows the 'Attendance & OD' form within the 'Students Attendance System' application. The left sidebar contains navigation options: 'Student Details', 'Attendance & OD' (selected), and 'Attendance & OD Report'. The main form area includes the following fields:

- Student ID:** A text input field containing '1234'.
- Student Name:** Two text input fields. The first, labeled 'First Name', contains 'Pradeep'. The second, labeled 'Last Name', is empty.
- Course:** A dropdown menu showing 'Choice 2' with a close (x) and expand (v) icon.
- OD Request:** Three radio button options: 'Choice 1', 'Choice 2', and 'Choice 3'. 'Choice 3' is selected.
- Submit:** A blue button at the bottom of the form.

The screenshot shows the 'Attendance & OD Report' table. The table has the following columns: Student ID, Student Name, Course, Auto Number, Auto Number, Auto Number, and OD Request. The table contains one data row for Student ID 1234, Student Name Pradeep, Course Choice 2, and OD Request Choice 3. The table is displayed with a search bar and a plus icon in the top right corner.

Student ID	Student Name	Course	Auto Number	Auto Number	Auto Number	OD Request
1234	Pradeep	Choice 2	1	1	1	Choice 3

Result:

Thus, a cloud-based Students Attendance System was successfully created using Zoho Creator. The system manages student details, attendance, OD requests, attendance percentage and grades through a SaaS application.
